## WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

## THE FOCUS FOR SEPTEMBER

It is time at last to confront the inevitable consequences of the erroneous thinking, the willfulness, and the ego-driven fears that carry our world into confrontation, pain, and illusion. We can be truly grateful for the blessings this opportunity brings. After all, illusion is in fact what drives our fears, and when we arrest its hold on our minds and lives, we can once again relax and refresh ourselves in the secure knowledge of our true identity.

As September gets underway, we can only imagine the amazing possibilities that lie ahead of us as we step out into new realms of experience and begin to mature in our spiritual growth. Yet imagination is exactly what is called for now, for we must begin to act as if we already are fully enlightened, as if we have already mastered the spiritual disciplines that will make us whole again. As we direct our minds and align our emotional bodies with our highest spiritual motivations we can bring fresh ingenuity into our lives, becoming more and more skilled at activating the untapped potential that is slumbering within our hearts.

We have often heard it said that when the student is ready the teacher will appear. That is certainly the case in the week following September's Lunar Eclipse, when we will have a far greater need for opening ourselves to new possibilities and for expanding our awareness into more subtle and profound spiritual realms. Above all, we must be willing to listen attentively right now, not only to the wisdom of the teachers that lovingly surround and support us, but also to the voice of the ultimate teacher within.

If we are ever going to experience a time in which we must have total reliance upon Divine Grace and on the purposeful workings of a Benevolent Universe, that occasion will come in the days surrounding the Solar Eclipse on September 22, on the eve of the Autumnal Equinox. This is an extraordinarily powerful event, exploding into our lives in a way that will shake old paradigms and expectations to their very roots. At the same time, however, it is an occasion that brings us the possibility of rebirth and renewal in every part of our lives, culminating in such a powerful focus of will and intention that we can have extraordinary new breakthroughs in consciousness. Our task is to open ourselves to the influx of transformative energy, setting aside our illusions and fantasies so we can give full expression to a fresh new awareness that completely combines love, courage and wisdom in all of our thoughts and actions.

At one time in the past we may have thought it possible for us to conceal

our true motivations and to obscure the remnants of our former transgressions, but that is no longer the case. The enriched awareness and divine inspiration that are flowing into our planet now cast a clear and relentless light on who we truly are, revealing to others and to ourselves not the fact that we are somehow incompetent or unscrupulous, but rather the realization that we are becoming more fully adept every day as we work to embody and express the ineffable Grace that imbues our lives with unimaginable blessings as it transfigures all that we see or touch.

## Spiritual Living in the Material World

We face many challenges when we bring our spiritual awareness into the realm of mundane reality, but few are greater than the ones that revolve around money.

Financial concerns have enormous power which can be used wisely to transform our lives and to open up new avenues of loving and creative service. Money creates emotional stress, plus wonderful opportunities for growth, spiritual evolution, & personal contribution.
