WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR MARCH

Sometimes the best expression of creative intelligence is a small step backwards, a retreat into a quiet zone where we can experience the inner tranquility that keeps us established in pure consciousness. By withdrawing temporarily we ultimately become more empowered and more energized, enhancing our effectiveness as we return to activity in the service of the planet.

So what are you doing after your next peak experience? We all have many highs and lows as we move along the spiritual path, but regardless of the gamut of emotions that we may experience, the real growth comes when we can assimilate what we have learned. It is that core realignment that gives spiritual credibility, as well as the wisdom we need to devote ourselves to genuine service.

There is always a part of us which instinctively strives for higher ideals, for fuller manifestation of divine order in our lives. It is in that striving for greater heights that can awaken the best within ourselves, turning our spiritual idealism into the seeds of spiritual action.

At this time of reawakening and new beginnings we may actually surprise ourselves with bursts of dynamic insight and creativity. If we allow the riches of our subconscious minds to emerge and embrace the innocence within our hearts, we can become the harbingers of a vast resurgence of enlivened blessings.

If we take a little time away from our daily pressures and expectancies, if we are simply willing to pause for the sake of pausing, we are likely to get glimpses of our true potential. As we gaze upon the new reality that we can bring into manifestation, our strongest asset is unshakable faith. If we increase our ability to believe, we automatically increase our ability to change the world.
