WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR JUNE

Why should we be limited by old boundaries, by old assumptions, or by old expectations? We can now completely transcend all that we formerly allowed to hold us back, expanding effortlessly into a richer, more fulfilling consciousness that allows us to accept and embrace the boundless nature of who we really are—Divine beings bringing all possibilities into glorious manifestation. The real treasure in this transcendent state is not just the glow of confident self-assurance; it is the joyfully humbling recognition that we are surrounded by other sentient beings with whom we are irrevocably linked as one mind and one creative expression!

When we recognize love as our true essence, what can we do but bring ever-increasing levels of refinement to every facet of our experience? Oddly enough, however, as we become more refined and discriminating, we run the risk of ignoring the full range of creative potential that awaits expression all around us. We even may become wasteful, failing to respond to the Divine Impulse seeking manifestation in our lives. Our task is simply to be big enough, to encompass and embrace the full range of cosmic experience so that we can more fully assimilate the never-ending flow of creative intelligence into our personal roles and relationships.

How do we fulfill our Divine mission? How do we more fully become who we are destined to be? The answer is amazingly simple. We simply have to awaken emotional energies in others. In so doing we open the doors to mental fulfillment, to the quickening of the intuition, to connection with higher planes and purposes, and to awakening the spiritual dimensions in our own lives and in the lives of others. At times the emotional expressions that get awakened may become a bit uncomfortable, but our role is to stay securely anchored in our higher purpose so that others have the opportunity to share our vision of the enlightened world to come.

We all have individual gifts, and we all are granted particular insights that empower our personal development and enrich our ability to help others around us. But regardless of how amazing our special capabilities may be, they do little good for others or ourselves if they remain hidden or unacknowledged. Inevitably we can no longer allow them to remain dormant. We must express our ideas, reveal our talents, and fully accept our true responsibilities. Along the way, we can release our ego-driven
