WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR SEPTEMBER

No matter how passionately we dream, and no matter how intensely we visualize the grand expressions that we hope to materialize in our lives, we will accomplish very little unless we take dynamic, directed, and persistent action. It is in our willingness to act that we can become grounded and focused on who we really are, unveiling the latent potential within our hearts that forever returns us to our Divine Source.

If we claim our spiritual birthright, we can share in the adept's ability to transcend death, to step serenely into the realm of the unknown and then consciously return to the same body, enlivened and emboldened by expanded consciousness. When we are prepared to learn from just such an experience at whatever level we may encounter it, we can transform our lives in truly profound ways, replacing complacent subservience to social norms and expectations with bolder and more powerful expressions of spiritual will.

There are times, of course, when the tried and true mainstays of our existence become hopelessly ossified, unconsciously stifling healthy expressions of creativity and engendering fear where only love should rightfully be present. In the face of such pervasive obstacles, the most passionate kind of spiritual rebellion is required, but we must consciously orchestrate and refine our expressions of Divine Love if we are to conspire effectively with others in transforming the institutions and power structures around us.

“Ready, fire, aim!” We are clearly in the midst of a time of powerful spiritual renewal, but it is nevertheless challenging to stay the course if we become absorbed in analysis or allow ourselves to be controlled by emotional fluctuations. Our task is to trust the Divine Guidance that we receive so abundantly every day, acting with courage and boldness even though we may not fully understand exactly where we are going.

As we approach the sacred period of rededication at the September 29 New Moon it is once again time for us to reflect, to open ourselves up to all the ways that our lives spontaneously renew themselves, awakening our spirits from the slumber of ignorance to a full and vibrant participation in our own spiritual evolution. We are called upon now to begin anew, to discover richer, more abundant values that will ground us in our quest for a grander and more fulfilling expression of our Divine essence.
