WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR AUGUST

As we share with others a common dedication to keeping spiritual realities alive within our hearts and in our mutual experience, we can be blessed with a broader vision of the profound possibilities that can find expression through us, as well as a more powerful visceral understanding of the transformation that we are capable of. All we need to do is to strike the match—when we initiate divinely-inspired action, our fulfillment is assured!

If we are willing to step outside of ourselves for a moment, to move beyond our petty, ego-driven concerns, we can perhaps catch a glimpse of our true nature in the mirror of those around us. Of course our obnoxious habits, our apparent shortcomings, and our mean-spiritedness are all there to behold, but if we look beyond the façade of personality we can feel the pulse of Divinity within our hearts, ever working to transform our experience and to purge our perception as we tap the power of natural law and merge with the loving vibration which conforms seemingly random circumstance to the immutable template of cosmic order.

Whether we like it or not, the times are changing profoundly, and we are changing with them. But will we embrace that change as welcome growth, or struggle in vain against its disruptive and often discouraging impact in our lives? The choice, of course, is ours. Our attitudes, assumptions, and visions of the future can foster paranoia, lack, and ultimate destruction, or we can step up to our destiny squarely in the eye and become the personal embodiment of the grand and glorious forces that can transform the world in wonderful ways.

Especially in times of economic or social stress, we may start to listen to our ego demands for self-preservation. If we let ourselves get into survival mode, we not only admit into our lives the kind of fear that limits our possibilities on the spiritual path; we also restrict the flow of life energy that empowers our ability to survive in the first place! Our task, then, is simply to return to inner silence in grateful acknowledgement of the loving and wise guardians of pure awareness who are always available to ensure and sustain our evolution and success.

Are we being foolish? Perhaps it is a lack of prudence that encourages us to open our hearts in trust, and perhaps we are misguided in allowing that kind of vulnerability into our lives. Even so, however, there are times and circumstances in which defenselessness is really an advantage—after all, how else can we fall in love, and bathe our world-weary fears and frustrations in the river of Divine Romance?
