WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR OCTOBER

The frenzied activity of the workaday world around us can actually become an imaginative source of spiritual inspiration if we open ourselves to the intrinsic beauty and grace of all human interaction. Then, if we are able to remain centered in pure consciousness, we can more fully comprehend the unique strength and refinement of our personal expressions of the divine intelligence.

We may feel a little tentative at first as we explore our powers of spiritual and creative expression, but if we persist in childlike innocence we can tap into the overwhelming power of Divine Grace, bringing us greater enjoyment than we've ever imagined possible.

As we realize who we really are, sometimes the sheer potential of who we are becoming is enough to provoke a spontaneous cry of joy. Being so richly blessed, and being able to experience that flow of blessing so completely in our lives, is more than enough cause for celebration!

A strangely lively intuition is awakened within us when we engage in the world of active commerce. We become more finely attuned to the nuances of divine expression in human form, and as that happens we expand as well our own awareness of our individual potential as a creative force participating in a universal web of spiritual connections.

It's time that we awakened from our slumber, letting the passivity of our receptive nature transform itself into full-throated expression of Divine Purpose and sacred initiative. While our impulses may be unruly when left to their own devices, they can become disciplined embodiments of divine intention if we subordinate them into their natural roles as active statements of a higher reality.
